ANCIENT JERUSALEM,

A LARGE AND BEAUTIFUL
ISOMETRICAL PICTURE
OF
JERUSALEM
And the Sacred Places Surrounding the HOLY CITY,
AS THEY APPEARED IN ANCIENT TIMES.

The above work is commended to the favorable notice of clergymen, and those having charge of Sunday-schools, Bible-classes, and public institutions.

It is about 9 feet long and 6 feet wide, colored and varnished, and mounted on canvas with rollers.

It has been constructed from the most reliable and authentic sources, and will be found an invaluable aid to those engaged in lecturing on the Holy Land, or in imparting instruction to school classes on the subject to which it refers.

It aims to give an exact idea of the city as it appeared in ancient times. It is taken as a "bird's eye" or "balloon" view; the beholder being, in imagination, placed at a considerable elevation, so as to take a comprehensive view of the city and the whole country for some distance around.

The view is accompanied with an Outline Key, in which the different localities are numbered, and a Descriptive Manual containing all the information necessary to enable one to use the view to advantage in teaching or lecturing.

THE SUNDAY-SCHOOL TIMES.

This is a Weekly Religious Paper, published at the very low price of ONE DOLLAR A YEAR. It is designed for *Parents, Teachers*, and all who are engaged or interested in the religious training of the young. It is also an excellent Family Paper.

A portion of the *Sunday-School Times* is occupied with Narratives and other matter particularly interesting to *young persons*. Teachers will find in it much that they *will like to read to their classes—interesting matter* prepared to their hands, and such as they cannot find elsewhere. For the same reasons, members of Bible-classes, and the older scholars generally, will be greatly benefited by the perusal of this paper.

The *Sunday-School Times* has every week a report of the choicest matter, selected from the Noon Prayer Meetings, which are so interesting to all classes of Christians.

Besides a large amount of general religious intelligence, the *Sunday-School Times contains* all the most recent Sunday-school news. It reports all the important Conventions of Sunday-school teachers. It discusses the questions which most interest and perplex teachers and parents, respecting the various methods of Religious Training for the young, the means of gaining the attention and affections of children, and especially of securing their conversion and bringing them to Christ. The subject of Mission-Schools for cities, and of Sunday-school missionary work for the interior, is *thoroughly canvassed*. Indeed, there is hardly a topic of practical importance to any who are interested in the subject of religious education, which is not here brought under consideration from week to week.

The conductors of this paper endeavor to remember, that the great end of all Christian effort is *to bring men to Christ*. They aim accordingly, to put into every number of the paper something which shall have for its direct object the conversion of souls.

SPECIAL OFFER.

The proprietors of the *Sunday-School Times* have acquired the exclusive right of sale of the splendid work mentioned above, the MAP OF ANCIENT JERUSALEM, offer it as a special premium to those superintendents, teachers, or others, who will assist in getting new subscribers to the paper.

We offer this superb premium to any one who will send us the names of 12 new subscribers and $12 in cash.

CAUTION.

☞ In every case, before beginning to canvass, be sure to write to us and obtain the necessary documents and instructions. These will help you greatly in prosecuting the work, and will save you many mistakes. Enclose 5 cents to pay postage. Address

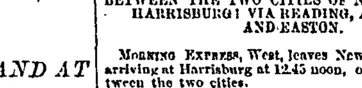

PROPRIETORS OF THE SUNDAY-SCHOOL TIMES,

COMMENDATIONS:
From Hon. Lewis D. Campbell, M. C., Ohio.
My family and friends all concur in the opinion that the (Newell) picture is more life-like than any thing they ever saw. My likeness has been repeatedly taken by different Artists in various ways, but I have never yet had one which presents so true to nature, all the features and expressions of countenance as this.
From Hon. E. Joy Morris, late Minister to Italy,
The exquisite finish, beauty and sofness of your portraits, conjoined with their durability of color and faithfulness as likenesses, cannot fail to commend them to the patronage of all who appreciate true art.
From Col. James Page.
Having occasion for a portrait, I procured one from Mr. Robert Newell, of the city of Philadelphia, a miniature in Oil Colors, *under the new process discovered by him*, and take great pleasure in expressing the satisfaction given me, not only by the accuracy of the likeness, but its artistic finish in all respects, and recommends him to the patronage of those disposed to encourage the beautiful art.

HOMES FOR THE INDUSTRIOUS
IN THE
GARDEN STATE OF THE WEST.
The Illinois Ceneral Railroad Company have for Sale
1,200,000 ACRES
Of Rich Farming Lands in Tracts of Forty Acres and Upward, on Long Credit and at Low Prices.

MECHANICS, FARMERS, AD WORKI GMEN.

The attention of the enterprising and industrious portion of the community is directed to the following statements and liberal inducements offered them by the

ILLI OIS CENTRAL RAILROAD COMPANY,

Which, as they will perceive, will enable them, by proper energy, perseverance, and industry, to provide comfortable and permanent homes for themselves and families, with, comparatively speaking, very little capital.

LANDS OF ILLINOIS.

No State in the valley of the Mississippi offers so great an inducement to the settler as the State of Illinois.— There is no portion of the world where all of the conditions of climate and soil so admirably combine to produce those two great staples, corn and wheat, as the prairies of Illinois.

RICH ROLLING PRAIRIE LANDS.

The deep rich loam of the prairies is cultivated with such wonderful facility that the farmers of the Eastern and Middle States are moving to Illinois in great numbers. The area of Illinois is about equal to that of England, and the soil is so rich that it will support twenty millions of people.

EASTERN AND SOUTHERN MARKETS.

These lands are contiguous to a railroad seven hundred miles in length, which connects with other roads and navigable lakes and rivers, thus affording an unbroken communication with the Eastern and Southern markets.

APPLICATION OF CAPITAL.

Thus far capital and labor have been applied to developing the soil; the great resources of the State in coal and iron are almost untouched. The invariable rule that the mechanic arts flourish best where food and fuel are cheapest, will follow at an early day in Illinois, and in the course of the next ten years the natural laws and necessities of the case warrant the belief that at least five hundred thousand people will be engaged in the State of Illinois in the various manufacturing employments.

RAILROAD SYSTEM OF ILLINOIS.

Over $100,000,000 of private capital have been expended on the railroad system of Illinois. Inasmuch as part of the income from several of these works, with a valuable public fund in lands, go to diminish the State expenses, the taxes are light, and must consequently every day decrease.

THE STATE DEBT.

The State debt is only $10,105,398 14, and within the last three years has been reduced $2,959,746 80; and we may reasonably expect that in ten years it will become extinct.

PRESENT POPULATION.

The State is rapidly filling up with population; 868,025 persons having been added since 1850, making the population 1,719,496—a ratio of 102 per cent. in ten years.

AGRICULTURAL PRODUCTS.

The agricultural products of Illinois are greater than those of any other State. The products sent out during the past year exceeded 1,500,000 tons. The wheat crop of 1860 approaches 35,000,000 bushels, while the corn crop yields not less than 140,000,000 bushels.

FERTILITY OF SOIL.

Nowhere can the industrious farmer secure such immediate results for his labor as upon these prairie soils, they being composed of a deep rich loam, the fertility of which is unsurpassed by any on the globe.

TO ACTUAL CULTIVATORS.

Since 1854 the Company have sold 1,300,000 acres. They sell only to actual cultivators, and every contract contains an agreement to cultivate. The road has been constructed through these lands at an expense of $30,000,000. In 1850, the population of the 49 counties through which it passes was only 335,598, since which 479,293 have been added, making the whole population 814,891—a gain of 143 per cent.

EVIDENCES OF PROSPERITY.

As an evidence of the thrift of the people, it may be stated that 600,000 tons of freight, including 8,600,000 bus. of grain and 250,000 barrels of flour, were forwarded over the line last year.

EDUCATION.

Mechanics and workingmen will find the free school system encouraged by the State and endowed with a large revenue for the support of schools. Their children can live in sight of the church and school house, and grow up with the prosperity of the leading state in the Great Western Empire.

PRICES AND TERMS OF PAYMENT.

The prices of these lands vary from $6 to $25 per acre, acording to location, quality, &c. First-class farming lands sell for about $10 or $12 per acre; and the relative expense of subduing prairie land, as compared with woodland, is in the ratio of one to ten in favor of the former. The terms of sale for the bulk of these lands will be

ONE YEAR'S INTEREST IN ADVANCE,

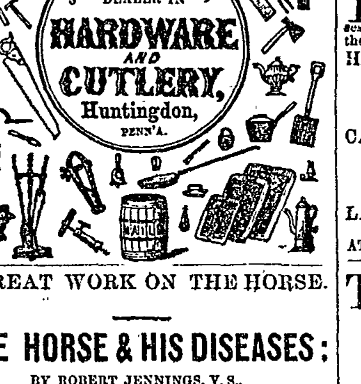

at six per cent per annum, and six interest notes at six per cent. payable respectively in one, two, three, four, five, and six years from date of sale; and four notes for principal, payable in four, five, six, and seven years, from date of sale; the contract stipulating that one-tenth of the tract purchased shall be fenced and cultivated, each and every *year for five years from the date of sale, so that at the end* of five years one-half shall be fenced and under cultivation.

TWENTY PER CENT. WILL BE DEDUCTED.

from the valuation for cash, except the same should be at six dollars per acre, when the cash price will be $5 dollars.

Pamphlets descriptive of the lands, soil, climate, productions, prices, and terms of payment, can be had on application to J. W. FOSTER,
Land Commissioner, Illinois Central Railroad,
Chicago, Illinois.

For the names of the towns, villages, and cities situated upon the Illinois Central Railroad, see pages 188, 189, and 190 Appleton's Railway Guide. [Feb. 13, '61-wtf.

PRACTICAL CALCULATOR.

ROHRER'S PRACTICAL CALCULATOR,
A Book of Plain Rules and Calculations for Business Operations, by Martin M. Rohrer, Practical Surveyor and Conveyancer. New Edition, published by J. B. Lippincott & Co., Philadelphia.

This work contains 204 pages, and upwards of 500 Rules and Examples, entirely and thoroughly practical, such as arise every day in the common pursuits of Business. It has already passed through a number of editions in rapid succession, and is pronounced by all classes of business men to be the handiest book of reference, pertaining to calculations, that has ever been published.

Every example in the book is worked out in full, and stated in a plain manner, so that when a parallel case arises, those referring to the work will find no difficulty in solving it; in a word, the general arrangement of the CALCULATOR is simple, that any one who knows how to add, subtract, multiply and divide, can easily solve any ordinary example that arises in business, or arrive at the true result of any estimate required.

The chief aim of the author has been to eschew theory and philosophy in figures, aiming only at facts and simplicity, believing that business men care little about spending time in discussing the philosophy of rules, or the science of figures, deeming it sufficient for their purpose to be able at a moment, by reference, to arrive at the true result. The CALCULATOR differs in this respect from all other Arithmetics of the day and kindred works—it is a key to practical business calculations—it is, in the hands of the business man, what the key to mathematical works in the hands of the teacher in the school room—it facilitates time and insures correctness.

THE WORK TREATS OF THE

Measurement of Land, of Lumber, of Brick and Brick Work, of Stone and Stone work, of grain and grain bins, of coal and coal bins, of wood, of solids, of liquids, of circular, square or irregular vessels, of cisterns and vats, of roofing, of plasterer's, painter's, glazier's, paver's, plumber's, paper hanger's and upholsterers' work. It treats of currency and of foreign and domestic exchange, of the decimal system, of reduction and its extended application to business, of simple and compound interest, and their entire application to business transactions, with the laws and usages governing the same, together with numerous commercial forms—of legal tender, of partial payment on notes, of banking and bank discount, of equation of payment and of partnership accounts, of assessment of taxes, of weights and measures, of square and cubic measure, of the square root and its application to business of surfaces, of excavation, and of many other important practical matters not within the scope of an advertisement to mention.

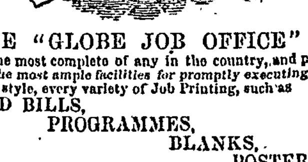

IT IS JUST THE BOOK FOR THE

Farmer, the merchant, the mechanic, the artizan, or the professional man. It has proven a valuable auxiliary to the lawyer, the justice of the peace, the conveyancer, and real estate broker, to the assessor, the banker, the clerk, to the civil engineer and the surveyor, to the carpenter and bricklayer, to the stonemason and the plasterer, to the paper hanger and upholsterer, to the paver and the tiler, &c., &c.; each and all will find it adapted to their various wants better than any book published.

The Star-Spangled Banner.

Oh! say, can you see, by the dawn's early light,
What so proudly we hail'd at the twilight's last gleaming!
Whose broad stripes and bright stars through the perilous fight,
O'er the ramparts we watch'd, were so gallantly streaming!
And the rocket's red glare, the bombs bursting in air,
Gave proof through the night that our flag was still there!
Oh! say, does that star-spangled banner yet wave,
O'er the land of the free, and the home of the brave?

On the shore, dimly seen through the mists of the deep,
Where the foes haughty host in dread silence reposes,
What is that which the breeze, o'er the towering steep,
As it fitfully blows, half conceals, half discloses?
Now it catches the gleam of the morning's first beam;
In full glory reflected, now shines on the stream—
'Tis the star-spangled banner! Oh, long may it wave,
O'er the land of the free, and the home of the brave!

And where is that band who so vauntingly swore
That the havoc of war, and the battle's confusion,
A home and a country should leave us no more?
Their blood has wash'd out their foul footstep's pollution
No refuge could save the hireling and slave,
From the terror of flight or the gloom the grave!
And the star-spangled banner in triumph doth wave,
O'er the land of the free, and the home of the brave!

Oh! thus be it ever, when freemen shall stand
Between their loved home and war's desolation!
Blessed with victory and peace, may the Heaven-rescued land
Praise the Power that hath made and preserved us a nation!
Then conquer we must, when our cause it is just,
And this be our motto—"In God is our trust!"
And the star-spangled banner in triumph shall wave,
O'er the land of the free, and the home of the brave!

Red, White, and Blue.

Oh Columbia, the gem of the ocean,
The home of the brave and the free,
The shrine of each patriot's devotion,
A world offers homage to thee.
Thy mandates make heroes assemble,
When liberty's form stands in view,
Thy banners make tyranny tremble,
When borne by the red, white, and blue.
When borne by the red, white, and blue,
When borne by the red, white, and blue,
Thy banners make tyranny tremble,
When borne by the red, white, and blue.

When war waged its wide desolation,
And threaten'd our land to deform,
The ark then of freedom's foundation,
Columbia rode safe through the storm.
With her garland of victory o'er her,
When so proudly she bore her bold crew,
With her flag proudly floating before her,
The boast of the red, white, and blue.
The boast of, &c.

The wine cup, the wine cup bring hither,
And fill you it up to the brim,
May the wreath they have won never wither,
Nor the star of their glory grow dim,
May the service united ne'er sever,
And hold to their colors so true,
The army and navy forever,
Three cheers for the red, white, and blue.
Three cheers for, &c.

☞ Col. C. H. Foster is announced as an unconditional Union candidate for Congress in the First Congressional District of North Carolina. Having made his appointments, he will soon take the stump and prosecute a vigorous canvass. Mr. Foster was the editor of the Norfolk *Day Book*, and the North Carolina *Citizen*, and has been a bold and determined advocate of the Union ever since the breaking out of the rebellion. Mr. Foster says that if a few federal regiments were stationed in North Carolina, one in each Congressional District, to protect the Union men there, there would be a full delegation of unconditional Union members elected to Congress from that State on the first Thursday in August next.

INORDINATE THIRST.—To those who have a strong desire to drink great quantities of water in summer, a writer gives the following advice: "Take the twig of a birch, elm or other tree, having a pleasant taste, and cut it into several pieces about half an inch in length each. Keep one of these in the mouth while traveling or working in the sun, for about an hour, throw it away and supply its place with another, and thus continue during the warmest hours of the day. By following this advice, a person will feel no more desire to drink in warm than cool weather."

Horrible Affair at Wyandotte---Forty Volunteers Buried Beneath the Ruins of Their Drill-Room---Several Lives Lost.

KANSAS CITY, June 24.—A horrible disaster occurred at Wyandotte, Kansas, yesterday, about 10 o'clock, by the falling in of the walls of two buildings and part of a third, burrying all the inmates, forty persons! The buildings were some four stories high, situated on the levee, and had been used as the headquarters of the First Regiment of Kansas volunteers. Yesterday Capt. Haines, with a company of forty men, entered the building for the purpose of drilling, preparatory to being received into the United States service, when the centre wall of the building suddenly gave way, plunging the whole company beneath the mass of ruins. A number were instantly killed, and one, a German—name unknown—died soon after being liberated. One man had both legs and arms broken. Twelve or fifteen others were slightly injured. Some escaped without a bruise. The loss by the destruction of the building is not known.

WAR NEWS.

Affairs in Missouri.

ST. LOUIS, June 24.—The *Democrat* learns from citizens of Lexington arrived here, that the news of the defeat of the State forces at Booneville had greatly discouraged the Secessionists of Lafayette and the adjoining counties. They also state that the moderate Secessionists of Lexington county are anxious to testify their allegiance to the Federal Government, and secure peace and order in the State. The Mayor of Lexington is a violent Secessionists, and has left the city, and his successor, a good union man, proclaims his determination to preserve law and order, and protect the rights of all classes of citizens, in which he is sustained by the almost unanimous voice of the people.

It is not thought that General Lyon will proceed further up the river, but proceed to the southwest, where, in conjunction with Colonel Siegell's command, at Springfield, he will invite battle with Ben McCullough, or any one else in command of the Arkansas troops.

CAIRO, June 24.—The expedition under the command of Col. Morgan, sent to Little River, Missouri, to capture the rebels reported to be encamped there, returned this evening, after a march of forty miles. The rebels had departed, having, it is thought, been informed of the approach of the Federal troops. The towns through which Col. Morgan passed were almost entirely deserted.

Three prominent rebel leaders were arrested and brought to this camp today.

The eighteenth regiment, from Camp Douglas, and a company of dragoons, from Centralia, arrived here to-day.

The steamer *City of Alton* left here last evening at 7 o'clock for up the river with 2,400 troops and four six-pounders. No doubt they are destined for Missouri.

The rebels of Tennessee are reported to be on their march through Arkansas for Missouri, to help Governor Jackson.

Great Destruction of Railroad Property at Martinsburg by the Rebels.

BALTIMORE, June 24.—The agent of the Baltimore and Ohio Railroad arrived here this evening, and reports great destruction of the property of the company there by the rebels. Forty-eight locomotives and a large number of gondola and coal cars were surrounded by piles of wood and set on fire. All the perishable portions of the property was consumed, and was damaged perhaps beyond repair. The large hotel there occupied by H. B. Carpenter was with much difficulty saved from the conflagration. A gentleman states, also, that he and Master Mechanic Edwards were arrested and carried before General Johnson for trying to stop the destruction of property. The agent says there are about 500 rebel troops at Martinsburg and in the vicinity.

The Western Virginia Convention.

WHEELING, June 24.—The State Convention re-assembled to-day, but transacted no business of importance, their work being for the present about finished.

Mr. Carlile, from the Committee of Seventeen, reported that the committee had concluded to adopt the present militia law of the State.

A resolution was reported and referred, setting forth the oppression of the Richmond usurpers, and appealing to the General Government for aid.

The Committee of Seventeen reported a lengthy address to the people of the State, explaining and justifying the action of the Convention in not taking immediate steps to divide the State.

A resolution was adopted that when the Convention adjourn to-morrow, it adjourn to the first Tuesday in August.

Reports of the American Rebellion in Mexico.

A private letter from Minister Corwin, dated Mexico, May 17, says the accounts which reach there of affairs in the United States are confused, and he expresses an earnest desire to know the facts, it being reported through Secession channels, that President Lincoln has been driven from Washington, and that Lieutenant General Scott is at the head of the Confederate army.

A letter from another source says the *Trait d' Union* newspaper is in the Secession interest, and endeavoring to embarrass the treaty proceedings between the United States and Mexico.

Army Movements.

LEAVENWORTH, June 24.—A detachment of regulars from Kansas City captured 35 Secessionists, and a small quantity of arms and ammunition, at Liberty, Mo., on the 19th. The three remaining companies of the First Kansas Regiment, with one company of regulars, marched to Kansas City yesterday. The force at that point now numbers about 3,500 volunteers. They are provided with means of transportation and camp equipage for a march.

Perilous Escape of a Northern Man.

WASHINGTON, June 24.—Mr. McDonald, a native of Worcester, Massachusetts, who has been working in Mississippi, escaped, and was three times impressed on his way hither, the last time at Acquia Creek, from which place he fled at great peril, swimming eight miles, and reachad the United States steamer Pawnee, at Maryland Point, completely exhausted. He states that the rebels at Acquia Creek were reinforced, and were three thousand strong, and in the late engagement with the Freeborn and Anacosta the Confederates lost fifty men killed, and as many wounded.

Important and Interesting from Harper's Ferry.

HAGERSTOWN, June 24.—The agent of the Associated Press has just returned from Harper's Ferry. The town wears a look of desolation.—Scarcely an inhabitant is visible. The Federal troops were there. The last of the Rebel scouts were seen on Thursday.

The best informed sources there say that a body of 1,500 or 2,000 Confederates are stationed about three miles from the Ferry toward Winchester, but they are not visible either from the camp or Pinnacle Hill or from the Loudon county mountains.

Hugh Brennan a private in company F., Twenty-fourth Pennsylvania Regiment, has been arrested for trying to shoot Captain Thomas Smith, last Saturday. He is undergoing court martial, and will probably be shot.

Movements in Western Virginia.

GRAFTON, June 24.—Gen. McClellan is actively engaged in perfecting his arrangements, so that his movements will be made expeditiously when everything is prepared. Prompt and decisive movements may be expected soon. The force under Gen. McClellan's control is amply sufficient to insure a final solution of our troubles in Western Virginia. The guerilla system adopted by the enemy will be met and put down.

Military Movements in Missouri.

KANSAS CITY, June 24.—Five companies of cavalry, six companies of infantry, two companies of mounted rifles and dragoons, and ten companies of volunteers, in all about 1,500 men, with one battery, under command of Maj. J. D. Sturgess, left this city to-day, at 1 o'clock P. M., destined for Southwest Missouri.

High-handed Measure of the Maryland Secessionists.

FREDERICK, June 24.—The resolution requiring the Governor to return the State arms to the military companies from whom they were reclaimed, finally passed the Legislature to-day.

The Rebel Army at Winchester---A Guerrilla Regiment at Romney.

FREDERICK, June 25.—A Maryland secessionist, direct from Winchester yesterday morning, reports that the main body of the rebel army lately at Harper's Ferry, to the number of about 12,000 are stationed at the fair grounds near that city, and the remainder stationed at Bunker Hill, Romney and at points near Charleston.

At Romney a guerrilla regiment, commanded by Col. McDonald, is also stationed. On Sunday afternoon the troops at Winchester received orders to march at 2 o'clock, and their tents were struck and every preparation made for a march. The orders, were, however, suspended until 10 o'clock.

The Rebels at Acquia Creek.

BALTIMORE, June 24.—The *American* has a letter dated the 22d inst., on board the steamer Pawnee, off Acquia Creek, stating that a deserter from the rebels was picked up in the water after swimming four or five miles. He says the rebels at the Creek number from 2,000 to 3,000, and have several rifled cannon and a Dahlgreen gun. The Pawnee is keeping a strict river police at night, and has captured several small boats.

Interesting News from Western Virginia.

[Special Correspondence of the Press.]

WASHINGTON, June 25.—Honorable Charles H. Upton, Representative in Congress from the Alexandria and Fairfax (Va.) district, lately represented by Extra Billy Smith, now one of the monarchists, returned from Wheeling yesterday, bearing with him the Declaration of Independence of the Wheeling Virginia Convention, which he has been instructed to lay before the President of the United States, and which duty he performed this morning. It is a document of superior ability, and was drawn up by Daniel Lamb, Esq., cashier of the Wheeling Bank.—Carlile, Pierpont and Lamb are the leading spirits of this great movement—Carlile being the orator, Pierpont, the provisional governor, and. Lamb the calm, deliberate, conscientious councellor. The declaration was signed, on the day it was passed, by fifty-six members—exactly the number affixed to the original Declaration of Independence of the Thirteen Colonies. Subsequently other members gave it their signature. At first, but thirty-one counties sent delegates, but others have since came forward and given their assent to this noble revolution, Kanawha being among the last to come in. Mr. UPTON has been empowered by Governor PIERPONT to open polls for the election of State Senator in the 24th district, composed of the counties of Fairfax and Alexandria.

Notwithstanding the strong Union sentiment at Wheeling, a good deal of apprehension continues to prevail in regard to the movements of the Secessionists. The city itself could have been surprised by the traitors, but for the courage and vigilance of two ladies, Mrs. Lawrence Bullock, the widow of a Douglas Democratic editor, and Mrs. Ella McMechen, a lady of Pennsylvania connections. It appears that a domestic circle of one hundred ladies, composed of the elite of the town, had been formed, of which the two ladies referred to are members.—In this association, when treason began to be plotted, ten of the ladies retired, and Mrs. Bullock and Mrs. McMechen exposed the designs of the prominent male actors to the public authorities, and so saved Wheeling. The indignation against them among their former friends was such that some ninety of the ladies hung them and burned them in effigy.

All kinds of rumors prevail in and about Wheeling of intended attacks upon that post, precisely as they prevail in this quarter, in regard to the movements of the Secession tooops.—Colonel Kelley was much better, and will be at Wheeling on Saturday next. The Convention have passed an ordinance directing the people to pay no tax to the Richmond Government, and especially to repudiate the war debt. What will be done with the internal improvement debt has not yet been decided, but, inasmuch as the tide water counties have reaped most of the advantages of the public works, it would be paying the traitors in their own coin, if the patriotic citizens refused to recognize it. The spirit of the people of Western Virginia is heroic beyond example. They are resolved to go on, and will be represented in Congress by Messrs. BROWN, CARLILE, and others. It will be an interesting sight to see these courageous men taking their seats in the hall of the House of Representatives on the morning of the 4th of July next.

Special Congressional Election.

WILKESBARRE, June 24.—Honorable Hendrick B. Wright has been elected to Congress from the Twelfth district, to fill the vacancy occasioned by the death of Hon. George W. Scranton.—He had no opposition. Mr. Wright is a Democrat, but being an uncompromising Union man, and in favor of sustaining the Administration against the Southern rebels, the Republicans of this district declined to make a nomination against him.

ALEXANDRIA, June 25.—Mathew O'Brien, a farmer, who lives six miles out on the Fairfax road, reports that sixty rebel dragoons were in that vicinity yesterday afternoon. It is supposed that this was the company that Lieut. Tompkins went out to meet.

Important from Missouri.

The Battle of Booneville.—The Details of the Fight.—4,000 Rebels Routed and the Field Occupied in Twenty Minutes.

[Correspondence of the N. Y. Herald.]

BOONEVILLE, Cooper county, June 18, 1861.—The boats moved up to a landing eight miles below Booneville, on the south side of the river. Here they fastened to the shore, and the troops were debarked. A farmer at work in a field near the landing stated that the enemy were in camp four and a half miles from that spot, or three and a half miles below Booneville.—The level bottom land of the Missouri was here half a mile in width to the bluff, but it gradually narrowed as it extended up the river, until it terminated where the bluff came to the water's edge, two miles from the boat landing.

The road followed for a mile and a half along this bottom, and then ascended the bluff. The latter is a range of low hills or ridges, about two hundred feet in height, which are separated by ravines, some of them with quite precipitous sides. The order of proceeding was as follows: Ten mounted men, the only cavalry in the expedition, led the advance; scouting parties, detached from the Second Regiment, were thrown out for half a mile on the left, and to the river on the right; General Lyon's company of regulars, led by Sergeant Griffin, and Company B, of the Second Regiment, commanded by Capt. Schulte, followed the cavalry; Capt. Totten's battery of artillery, and his company of regulars, the latter led by Lieutenant Lathrop, came next, followed by Colonel Blair's First regiment; the rear was brought up by a battalion from Col. Boernstein's regiment, led by Lieutenaut Colonel Schaeffer. On board the boat was Capt. Richardson with Company D, First Regiment, and Capt. Boastep, with twenty men and a seige (eight inch) howitzer.

At just three minutes before seven A. M., on June 17, the order was given to move. The morning was cloudy, with occasionally a few drops of rain, but before the battle was over the sun shone out clear and bright as ever.—As the column ascended the bluff, the pickets of the enemy were seen and driven in.

After an advance of three fourths of a mile, one of the advanced guard rode hastily back to the head of the column, and informed General Lyon that the whole body of the State troops was drawn up a few hundred yards in front. Gen. Lyon at once ordered the regulars under Sergeant Griffin to the left, and Capt. Schulte's riflemen to the right. Capt. Totten's battery was ordered to the front to occupy the road.

The enemy were drawn up about three hundred yards in advance, on the crest of a hill, or rather a long swell or ridge, over which the road passed at the highest point. The road was occupied by Col. Marmaduke, with a small body of horsemen and a battalion of infantry. Immediately on his left was a brick house filled with rebel troops, and back of this, towards the river, was a narrow lane, where his left wing was posted.

To their rear was a wheat field, and in this was miscellaneously scattered small crowds of men, apparently without order or regularity. To his right was another wheat field, separated from an adjacent corn field by a "worm fence," and behind this fence his right wing was posted. Soon as our men were in position Capt. Totten unlimbered a twelve pounder and a six pounder, and sent a shell from the former into the midst of the men occupying the road. A puff of smoke rising among them showed that the gunner's aim had been true.

The next shell was directed upon the squads of men in the wheat field, and caused them to make a hasty retreat. The fire now became general along the whole line; the regulars on the right and the German troops on the left advancing in good order.—Our line was formed on a ridge similar to that occupied by the enemy, and parallel to it, separated from the latter by a valley with a gentle descent on either side. To our left was a corn field, and on our right a copse or grove of scattered oaks.

The regulars advanced in the corn field, to the crest of the ridge, creeping up the latter and firing when opportunity occurred, taking for their motto that of an Irishman at Donnybrook Fair, "Whenever you see a head hit it." The hollow between the ridges was full of scattered oaks, and these served as a cover to our men. Capt's Stone, Cole and Cavender, were sent to support the right of the regulars, and in this way they all advanced to the fence where the enemy were at first posted.

The battalion from the Second, supported by Captains Maurice's, Burke's and Yates' companies, were at the same time doing good work on the right; and in twenty minutes from the time Capt. Totten fired the first shell the rebels were in full retreat, and our men occupying the line first held by the enemy. The house on the right had been completely riddled by the last shots from the battery, and one shell burst in the very centre of the building at a time when it was full of soldiers.

Several dead bodies of the rebels were found in the wheat field near the lane, showing that our fire had been effective. In fact, at the first volley from the right wing several saddles were emptied of their riders, and two horses galloped over to our lines.—The correspondents of the New York *Herald* and St. Louis *Democrat* entered the battle on foot, by the side of the battery, but were very soon mounted, having succeeded in capturing these runaway steeds. From this point the Union troops proceeded still in line, for nearly a mile, over ground somewhat uneven, but not rough. In a grove at the entrance to Camp Vest the rebels made a brief stand, but two shells and a few rounds of Minie balls speedily dislodged them, and they fled in tumultuous haste towards Booneville. Capt. Cole, supported by Capt. Miller, entered and took possession of the camp, capturing a large quantity of provisions, ammunition, rifles and camp equipage. He secured one secession flag, one lone-star flag, and one State flag, with fifteen stars.

The number of killed and wounded on the part of the rebels has not and probably will not be accurately ascertained. Many of those fighting on the rebel side were "loose men," not enrolled in any company, and fled in large numbers, not to any rallying point, but directly home, thinking, doubtless, that there was some mistake about the popular belief that Union troops were cowards. Out of one company (Capt. McCulloch's Cooper County Rifles,) thirteen are known to be killed and several wounded.

The number of dead already brought into Booneville, or taken to friends in the country, cannot fall much short of fifty, and the wounded now heard of are as many more. Several shells were burst directly in their midst, and the Minie balls flew thick and fast from the rifles of our soldiers, so that the mortality list must have been quite large. On the side of the Union troops, there were three killed, ten wounded, and one missing.

We took eighty prisoners, nineteen of whom have been released, and the remaining sixty-one put on board the Louisiana. During the engagement, Rev. Wm. A. Pile, of St. Louis, chaplain to the First Regiment, was furnished with a detail of four men to look after the wounded. Descending to a ravine, he came suddenly upon a party of twenty-four rebels, and peremptorily ordered them to halt and surrender. They evidently considered discretion the better part of valor, and at once threw up the sponge, i. e., took off their hats, and laid down their arms. The parson soon after reported himself to Gen. Lyon, with his twenty-four prisoners, guarded by four men and himself. The story is pretty well circulated among our boys, and the chaplain is looked upon (if his clerical neck choker will allow the expression) as a perfect trump, a decided brick.

Riot at Milwaukee.

MILWAUKEE, June 24.—A riot occurred here to-day, which caused greater loss of property than at first supposed. The attack has been ascertained to have been regulary organized. Throughout yesterday meetings were held in the upper wards of the city. About ten o'clock the rioters marched from the Sixth and Ninth wards through East Water street to Mitchell's Bank, attacking it with stones. Bricks were thrown, riddling the windows completely. The clerks barricaded the doors, in order to gain time and secure the valuables, which they did, in a great measure. The mob then broke down the doors, and soon stripped the room of everything, throwing the furniture and books into the street. The State Bank, on the opposite corner, and J. B. Martin's office, were then attacked and served in like manner. The Bank of Milwaukee was also stoned, but little damage was done.

Messrs. Allen & McGregor's real-estate office was completely gutted and their books destroyed.

The Jurean Bank was also an object of their wrath, but the mob here were contented with only breaking the windows.

The Mayor and police were promptly on the ground, but were utterly powerless. One company of 40 men, the Montgomery Guard, was ordered out but declined to do anything, for fear they would be overpowered. The Zouaves were then ordered out, and charged on the mob, which immediately broke and ran. The streets were thus soon cleared, and guards were stationed at the corners, and at each bank. About fifty of the rioters were arrested and confined in jail under a strong guard of Zouaves. This evening the mob are in force in the Second and Sixth wards, where inflammatory speeches are being made. They have one cannon, and threaten an attack on the jail to-night unless their friends are released.

The Governor had proclaimed martial law, and telegraphed to Racine and Madison for State troops. They will arrive to-night.

As far as has been ascertained the following persons are injured: Alex. Mitchell, slightly; C. H. Larkin, Jr., paying teller of Mitchell's Bank, badly bruised; Judge Starkwether tramped on and badly hurt; Major Brown knocked down with a stone and slightly hurt; Mr. Hayden, book-keeper of the State Bank, considerably hurt.—One of the rioters was also badly cut on the shoulder, and another had his hand cut off. One was woundrd in the leg by the thrust of a bayonet.

The riot was caused by the action of the bankers on Saturday in throwing out of circulation the notes of a large number of the banks of this State.

THRILLING ADVENTURE WITH TWO LARGE SNAKES.—The St. Joseph Mich., *Traveller*, of June 12, says that while crossing a piece of marshy ground bordering on the Northern bayou, near this village, in company with a small boy, the sheriff discovered two large blue racer snakes just ahead of him, and although armed with nothing but an insignificant stick, he resolved at once to despatch the monsters! Therefore, by describing a circle, he headed them off, and hemmed them in next to the water, which this species of reptile dislikes exceedingly; but as he approached nearer and nearer, the largest one, head erect, turned upon him, and in an instant coiled its strong sinewy body about his legs with such tenacity that it was impossible for him to move from his tracks without falling over. But, in spite of this predicament, the sheriff was not so much alarmed until he saw the other snake, which had meantime been running from side to side, suddenly start towards him, and with the quickness of lightning, leap upon him, catching his arm in his embrace, and binding it to his body as if it had been secured with chains of steel, and, of course, notwithstanding he strained every nerve in the effort, he could not release it. With his left he drew a sheath knife from a breast pocket of his coat, and made short work of severing the coils of his disagreeable foes. The largest of these monsters measured seven feet four and one-half inches, and the other five feet eight inches in length. The sheriff says that it seemed to him that the terrible embrace of the large reptile was equal to the strength which two men could bring to bear on a rope about a person's limbs, and was extremely painful; while the quickness of their movements was indeed astonishing. He brought away their heads as trophies of his victory.

To All Persons in Possession of any Arms Belonging to the Government.

ADJUTANT GENERAL'S OFFICE, HARRISBURG, May 29, 1861.

To R. C. MCGILL:

Sir:—The Act of Assembly, approved the 15th day of May, A. D. 1861, entitled, "An Act to create a loan and to provide for arming the State," requires the collection of Military arms belonging to the State, for the purpose of remodeling and distribution.

You are hereby instructed to furnish, at once, to this Department, the names of all the Captains of Companies who have such arms in their possession, stating the number and description thereof. You will also employ some suitable person or persons to collect all those in the hands of disbanded Companies and individuals throughout your Brigade, and to box up and send the same to me at this place.

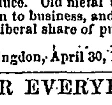

E. M. BIDDLE, Adjutant General.

BRIGADE INSPECTOR'S OFFICE, ALEXANDRIA, June 5, 1861.

Any individuals knowing persons to have the aforesaid arms, are required to report to me, or be held to answer the same as those persons secreting them.
